

**1982 to 1997 Agricultural Lands Converted to  
Urban Lands, Farmsteads, and Rural Transportation  
State of Oregon**

National Resources Inventory Results  
*Estimated for Non-Federal Lands Only*

	Cropland Estimates	Cropland Error	Pastureland Estimates	Pastureland Error	Rangeland Estimates	Rangeland Error	Total Estimates	Total Error
Urban Lands	63,000	**	58,600	**	22,700	**	144,300	**
Farmsteads	10,700	**	7,700	**	3,100	**	21,500	**
Rural Transportation	1,200	**	800***	**	3,500	**	5,500	**
Total Acres of Agricultural Lands* Converted	74,900	**	67,100	**	29,300	**	171,300	**

\* See Details Page

\*\* The estimates for agricultural lands converted between 1982 and 1997 were derived by adding the estimates for the 1982 to 1992 period to the estimates for the 1992 to 1997 period for urban land, farmsteads, and rural transportation. There are no standard error estimates for the 1982 to 1997 time period.

\*\*\* Pastureland Estimates - We have chosen to provide the complete Oregon NRI results for all natural resource land cover/use categories, including pastureland, in order to provide a complete "snapshot" of the state. It is important for the data user to recognize that the pastureland conversion estimate for Rural Transportation has a high standard error for the 1982 to 1992 time period and should be used with caution. This type of result may be useful for grouping estimates into broad categories (such as high, medium, and low), but the numerical estimate itself has low reliability.
