
CONSTRUCTION SPECIFICATION
CS-OR-207 EARTHFILL, CLASS U

207.1 SCOPE

The work shall consist of placing of earthfills where compaction other than which results from hauling and placing is not required.

207.2 GENERAL

The fill may contain rocks, woody and vegetative materials, provided they do not cause voids or excessive settlement. Non-organic material is not permitted. Hard objects such as roots, stumps, brush, and rocks shall be buried to a minimum depth of 2 feet below the finished grade. Adequate moisture to control dust on haul roads and fill areas shall be maintained.

207.3 FINAL GRADING

The earthfill surface shall be graded, sloped to drain, without surface depressions and blended with the surrounding area.
