TECHNICAL NOTE
190-VI

**SUBJECT: BIOLOGY TECHNICAL NOTE NO. 47, GOING WITH THE FLOW:
UNDERSTANDING EFFECTS OF LAND MANAGEMENT ON RIVERS,
FLOODS, AND FLOODPLAINS**

Purpose. To transmit to all Oregon offices the above named technical note.

Effective Date. Upon receipt.

Filing Instructions. File in correct numerical order in the Biology section of your Technical Note Binder. The Table of Contents provided with Biology Technical Note 99 includes the attached technical note.

Going with the Flow provides an explanation of stream dynamics, watersheds, aquatic habitat components, and restoration applications. It was developed by the National Sea Grant College Program.

This technical note can be used when developing a conservation plan and a stream is located on or directly adjacent to the property in order to understand stream functions during alternative development.

The State Office has an additional supply of this technical note. Please contact the Technology Team for additional copies.

A handwritten signature in cursive script that reads "Russell R. Hatz".

RUSSELL R. HATZ
