

## 2012 NECSS Conference New Technology Committee

- Sean Browning, NRCS, Raleigh NC, gave a remote presentation on CDSI.
- Dave Hoover gave a presentation on new revisions to Soil Web application.
- Christine Morgan, Texas A&M, gave a remote presentation on passive gamma ray technology and its potential applications to soil survey.
- Dave Hoover gave a presentation on future directions in development of raster products for soil survey.
- Dave Hoover presented on new apps for Smartphones and tablets.

### Charges

1. The committee will draft a recommendation statement that Soil Scientists (State Soil Scientists?) have more input into the CDSI development process.
2. Dave Hoover will work to increase awareness and accessibility to the New Technology sharepoint site. This could include migrating it to a university server.
