

## Applied Technology Standing Committee – 2012 Davis, CA

### Members:

Robert Vaughan, USFS, UT (Chair - elected by Committee at 2010 Conf) ([robertvaughan@fs.fed.us](mailto:robertvaughan@fs.fed.us))

Steve Campbell, NRCS, OR (Co-Chair - elected by Committee at 2010 Conf) ([steve.campbell@por.usda.gov](mailto:steve.campbell@por.usda.gov))

Others...

### Charges (*draft*):

To develop and document procedures, processes, and standards that will be used to integrate GIS, remote sensing, landscape modeling, and other similar technologies into the mainstream of the soil mapping and landscape inventory program. (*per 2011 National Conference New Technology Committee*)

1. Review reports and recommendations from the 2010 Western Regional Applied Technology and 2011 National Conference New Technology Committees. Continue work on relevant items (as decided by the Committee) and report at 2012 Regional Conference.
2. Identify new techniques that have emerged recently and report on strengths and weaknesses to the 2012 Conference.
3. Identify any other new technology-related topics for Western Committee action or to nominate for consideration to the 2013 National NCSS Conference.
