

## Office of Air and Radiation Rulemakings – 8/23/2006

### PM NAAQS

PM NAAQS Final	Court date of 9/27/06
PM Regulatory Impact Analysis	Final 9/27/2006
PM Monitoring Parts 53 and 58	Final 9/27/2006
PM 2.5 Implementation Policy	Projected for September 2006
PM 2.5 De Minimis Emission Levels For General Conformity	Final July 11, 2006
Exceptional Events Policy	Final December 2006
NPR on Transition to “New” NAAQS	May 2007

### Ozone NAAQS Review

Final Criteria Document	Final 2/28/06
Final Staff Paper	Final October 31, 2006
Proposal	Court Date of 3/28/07
Final	Court Date of 12/19/07

### Engines and Fuels

Deterioration Factor Provisions for Heavy-Duty Diesel Engine Certification and Part 86 Technical Amendments	Final August, 2006
Renewable Fuels Standards	
Rule to implement the default value	December, 2006
Proposal	Projected September, 2006
Final	Projected Early 2007
Control of Emissions from Nonroad Spark Engines and Equipment	Proposal January, 2007

### PSD/NSR and Title V

Aggregation and Debottlenecking	Proposal August, 2006
Reconsideration of Inclusion of Fugitive Emissions	Proposal October, 2006

PSD/NSR Reasonable Possibility in Recordkeeping	Proposal October 2006 (May move to January 2007)
NSR (appendix S)	Final October 2006 (May move to December 2006)
Interpretative Rule to clarify the scope of Some Monitoring Requirements in Title V Permit Programs	Final October, 2006
PSD for PM2.5 – Increments, Significant Impact Levels and Monitoring	Proposal November 2006
Revisions to the definition of Potential to Emit (PTE)	Proposal November, 2006
Flexible Air Permit Rule	Proposal December, 2006
Treatment of Corn Milling Facilities under the “Major Emitting Facility”	Final December, 2006
Periodic Monitoring in Title V Permit Programs	Proposal April, 2007

### **Monitoring**

Methods for Measurement of Visible Emissions	Final August, 2006
Performance Spec 16 – Procedures for Predictive Emission Monitoring Systems in Stationary Sources	Final October, 2006
Request for comments on Potentially Inadequate Monitoring	Completed
Rulemaking to address Inadequate Monitoring	Proposal December 2006

## **Miscellaneous**

Petition to list Diesel Exhaust as a HAP      September 2006

## **Ongoing Activities of Interest**

- EPA Clean Energy Branch collaboration with USDA on renewable energy program to advance biomass, wind and combined heat and power demonstration projects to commercial operation
  
- EPA and ethanol production industry partnership efforts to improve efficiency of ethanol production facilities using combined heat and power
  
- Monitoring study under the CAFO consent agreement is anticipated to begin this winter
  
- Workgroup to address condensable portion of PM2.5
