**NATIONAL ENGINEERING MANUAL 210-500/545 SUPPLEMENT NO. 13**

Subject: Missouri Supplement to National Engineering Manual

Purpose: To update engineering policy to the National Engineering Manual.

Effective Date: This supplement is effective upon receipt.

Explanation of Update: The National Engineering Manual requires that "As-Builts" be prepared for all class V or higher structures and all inventory size dams built under the CO-01 program. MO 512-51(a)(5) and MO 512.51(b)(3) clarify what is to be done. MO 512-51(b)(1) and MO 512-51(b)(2) have not been changed.

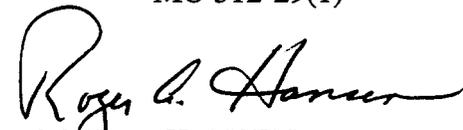

Practice Standard 312, Waste Management System, has been cancelled. On sheets MO 501-12(4) and MO 501-12(11) mark out items related to Practice Standard 312. On the next revision of the Engineering Forms Handbook, Forms MO-ENG-C12 and MO-ENG-C12A will be updated. In the interim continue to use the current form.

The national office is in the process of updating the National Engineering Manual. These Supplements will be updated as the changes are made to the NEM. Please keep the State Conservation Engineer informed of items in the Missouri Supplements that need to be changed or added.

Sheet 512-29(1), dated February 2001, shall be discarded.

**Filing Instructions:**

<u>Item</u>	<u>Place</u>
Directive Tabulation Sheet MO 512-29(1)	Front of NEM Behind page 512-28

ROGER A. HANSEN  
State Conservationist

**Attachments**

**Distribution:** Holders of NEM that include the following:  
All Field Offices (including S&WCD)  
All Area Offices      Engineering Library  
All Engineers      Midwest Region State Conservation Engineers
