NATIONAL ENGINEERING MANUAL 210-500/545 SUPPLEMENT NO. 10

Subject: Missouri Supplement to National Engineering Manual

Purpose: To update engineering policy to the National Engineering Manual.

Effective Date: This supplement is effective upon receipt.

Explanation of Update: The information in this supplement updates some of the Missouri supplements. Discard the outdated supplements that are being replaced. The changes in this update are minor. The number at the right hand top of each page indicates the first item on the page or the MO Exhibit number. Attached is a booklet from Missouri One Call System, Inc. entitled "Missouri One Call Manual." This manual contains Missouri state law that requires utilities to be notified when excavation is done near utility lines.

The national office is in the process of updating the National Engineering Manual. These Supplements will be updated as the changes are made to the NEM. Please keep the state conservation engineer informed of items in the Missouri Supplements that need to be changed or added.

Forms shown in this supplement are current as of this date. Use current forms as shown in Missouri Engineering Forms Handbook. The forms are also available on the Internet.
