

DELAWARE MATERIAL SPECIFICATION

PREFORMED EXPANSION JOINT FILLER MS 220

1. **SCOPE**

This specification covers the quality of preformed expansion joint fillers for concrete.

2. **QUALITY**

Preformed expansion joint filler shall conform to the requirements of ASTM Specification D-1752, Type I, Type II or Type III, unless bituminous type is specified. Bituminous type preformed expansion joint filler shall conform to the requirements of ASTM Specification D-994, or D-1751.
