USDA'S NATURAL RESOURCES CONSERVATION SERVICE (NRCS) IS A LOCAL RESOURCE FOR INNOVATIVE CONSERVATION SOLUTIONS TO IMPROVE THE LAND AND PROTECT YOUR WAY OF LIFE.

Financial and technical assistance is available for eligible producers in the **South Fork Palouse River watershed** for voluntary conservation practices to help provide cleaner water for their neighbors and communities.

Through the **Environmental Quality Incentives Program (EQIP)** Water Quality Initiative, NRCS may be able to help you implement conservation activities such as:

- Direct seed
- Cover crops
- Filter strips
- Vegetative barriers
- Field borders
- And more!

Contact your local NRCS field office for more information and to see if you are located in a selected watershed (*map on reverse*).
