

**WILDLIFE HABITAT INCENTIVES PROGRAM  
FY2011 Eligible Practices and Practice Hold-Downs  
EAST AREA - WASHINGTON STATE**

<b>Practice Code</b>	<b>Practice Name</b>	<b>Practice Hold Down NTE \$ <u>1/</u></b>
472	Access Control <span style="float: right;"><u>2/</u></span>	
314	Brush Management	
327	Conservation Cover	
342	Critical Area Planting	
382	Fence <span style="float: right;"><u>3/</u></span>	
386	Field Border	
384	Forest Slash Treatment	
666	Forest Stand Improvement	
561	Heavy Use Area Protection <span style="float: right;"><u>4/</u></span>	
422	Hedgerow Planting	
430	Irrigation Pipeline	
441	Irrigation System: Microirrigation	\$ 5,000
484	Mulching	
500	Obstruction Removal	
516	Pipeline <span style="float: right;"><u>4/</u></span>	\$ 10,000
378	Pond <span style="float: right;"><u>5/</u></span>	\$ 10,000
533	Pumping Plant <span style="float: right;"><u>4/</u></span>	\$ 10,000
643	Restoration and Management of Rare and Declining Habitats	
391	Riparian Forest Buffer	
390	Riparian Herbaceous Cover	
587	Structure for Water Control	
612	Tree/Shrub Establishment	
490	Tree/Shrub Site Preparation	
642	Water Well <span style="float: right;"><u>4/</u></span>	\$ 10,000
614	Watering Facility <span style="float: right;"><u>4/</u></span>	\$ 5,000
659	Wetland Enhancement	
657	Wetland Restoration	

**Footnotes:**

1/ The practice Hold Down is the maximum amount of cost-share for the total units of the practice scheduled in the WHIP Conservation Program Agreement.

2/ Access Control (472) is eligible only if a Federal, State, or Tribal Biologist concurs that the practice is needed to protect important habitat permanently, or during specific times of the year.

3/ This practice is eligible only if needed to control livestock access to plantings, wetlands, and riparian areas. The fence must be installed adjacent to such areas, or near enough to provide the intended protection to the habitat, without creating a potential to use the land as a separate grazing pasture.

4/ These practices are eligible only if needed to provide a replacement source of water for livestock that will be excluded from direct access to a significant riparian water source (stream, spring, pond, or lake) in order to directly benefit fish or wildlife species. In the East Area, only perennial water sources will be considered significant, and eligible for these practices.

5/ This practice is eligible only if needed in support of a Wetland Enhancement (659) or a Wetland Restoration (657) project.
