

## Helpful Hint—How to Label Soils in ArcMap

<b>Applies to Version:</b>	ArcGIS 9.2
<b>Written by:</b>	June Johnson Washington NRCS Toolkit Coordinator
<b>Helpful Hint Date:</b>	04-23-2009

### Procedure:

1. Right mouse click on the Soils layer in the ArcMap table of contents.
2. Go to Properties
3. Select the Labels tab
4. Click on to **Label features in this layer** and use the method: **Label all the features the same way**.
5. In Label Field, select **MUSYM**.
6. Click OK

This will put the map unit symbol in each of the Soil polygons.
