

**WA526.00 General**

(a) For agricultural related projects:

Engineer designs for stormwater management need to meet the policy in NEM Part 530, Hydrology and the procedures, guides and specifications outlined in the National Engineering Handbook (NEH) Part 630, Hydrology.

(b) For projects related to development areas:

Washington NRCS work related to stormwater management for runoff leaving a project site must comply with the technical guidance of Washington Department of Ecology (DOE) which can be found at the following web site:

<http://www.ecy.wa.gov/programs/wq/stormwater/tech.html>

Please refer to the following to determine geographical specific requirements:

- [Stormwater Management Manual for Western Washington](#)
- [Stormwater Management Manual for Eastern Washington](#)
- [Policy statement on use of the Stormwater Manual](#)
