

INSTRUCTIONS FOR USE OF WASHINGTON CONSTRUCTION SPECIFICATION (CS-63)

VEGETATION OF CONSTRUCTION SITES

1. Applicability

Construction Specification CS-63 is applicable to the establishment of vegetative protection of construction sites and/or roadways used in construction that are subject to erosion.

2. Material Specifications

There are no material specifications complementary to Washington State Construction Specification CS-63.

3. Special Items to be Included on the Drawings:

- a. The location and size of the area to be vegetated
- b. The species or mixture and the rate of seeding in pounds of pure live seed per acre
- c. The fertilization rate, if nutrients other than 30 pounds of nitrogen per acre is to be applied
- d. Type of mulch and mulching methods, if applicable
- e. Type of mesh or netting and method of anchoring, if applicable
- f. Special requirements for seedbed preparation, if applicable
- g. Seeding dates, if other than common seeding dates for the area are used
- h. Specify method of measurement and payment, if applicable
