Thickness _____

DRAIN DIP SECTION VIEW

NOTES:

- This standard drawing requires supporting technical documentation prior to use and must be adapted to the specific site.
- Drain dips should be level and not outsloped
- Minimum length of drain dip – 210 ft for log trucks
- Use drain dips on maximum road slope of 8%
- See table for drain dip cut and fill amounts
- Use rock riprap for outlet where necessary
- Disturbed areas and slopes shall be seeded and mulched to grass upon completion.

Road Slope (%)	D-(ft)	F-(ft)
2-3	1.3	1.0
4	2.0	1.4
5	2.3	1.8
6	2.7	2.0
7	3.0	2.3
8	3.5	2.8

Seeding Species _____

Seeding Rate _____ Lbs. PLS/AC
