WASHINGTON BULLETIN WA190-9-2

SUBJECT: Tree Protection in Areas of Heavy Browse

Purpose. Guidance for Wildlife Habitat Establishment and Restoration in Areas Heavily Browsed by Deer, Elk, Moose or Other Ungulates when Utilizing Farm Program Funds

Expiration Date: September 30, 2009

The following guidance is being made available to assist the planner in deciding how to address damage caused by browsing to woody plant materials that have been planted for wildlife habitat using Farm Bill Program dollars.

Should you have further questions, please call the State Biologist at 509-323-2972.

PAUL F. SCALES, JR.
State Resource Conservationist
