

Helpful Hint—How to Add ArcToolbox to the Toolkit ArcGIS Template

Applies to Version:	Toolkit SP-4, ArcGIS 9.2
Written by:	June Johnson Washington NRCS Toolkit Coordinator
Helpful Hint Date:	3-28-08

Background: The normal.mxt file for ArcGIS 9.2 that is used by Customer Service Toolkit, SP-4, has the ArcToolbox icon removed. This hint explains how to restore it.

Procedure:

1. Start ArcMap outside of Toolkit.
2. Go to **Tools→Customize**
3. Go to the **Commands** tab on the Customize Window
4. Make sure that **normal.mxt** is listed in **Save in**.
5. Scroll down the Categories list and highlight **ArcToolbox**; click and drag the ArcToolbox icon up to Standard toolbar and place it next to the ArcCatalog icon.
