

INSTRUCTIONS FOR USE OF WASHINGTON CONSTRUCTION SPECIFICATION (CS-02)

POLLUTION CONTROL

1. Applicability

Construction Specification CS-02 is applicable to the control or reduction of pollution from all construction activities involving any earth moving or disturbance of vegetative cover during the construction period.

2. Material Specifications

All applicable NRCS material specifications are complementary to Washington State Construction Specification CS-02.

3. Special Items to be Included on the Drawings:

- a. The area to be controlled shall be shown or described.
- b. Any restrictions which limit the construction time, sequence, or methods, if applicable.
- c. Alternate methods of control, if applicable.
- d. Any other special requirement pertaining to work including reference to federal, state and/or local laws, ordinances and regulations.
