

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
431	Above Ground, Multi-Outlet Pipeline (Ft)		X		A water distribution tubing consisting of aluminum, PVC, or lay-flat polyethylene pipeline with closely spaced orifices or gates.
472	Access Control (Ac.)	X			The temporary or permanent exclusion of animals, people, vehicles, and/or equipment from an area.
560	Access Road (Ft.)		X		A travelway constructed as part of a conservation plan.
309	Agrichemical Handling Facility (No.)		X		A facility with an impervious surface to provide an environmentally safe area for the handling of on-farm agrichemicals.
311	Alley Cropping (Ac.)		X		Trees or shrubs planted in a set or series of single or multiple rows with agronomic, horticultural crops or forages cultivated in the alleys between the rows of woody plants.
591	Amendments for the Treatment of Agricultural Waste (AU)	X			Treatment of manure process wastewater, storm water runoff from lots or other high intensity areas, and other wastes, with chemical or biological additives.
366	Anaerobic Digester (No.)			X	A component of a waste management system that provides biological treatment in the absence of oxygen.
316	Animal Mortality Facility (No.)			X	An on-farm facility for the treatment or disposal of livestock and poultry carcasses.
575	Animal Trails and Walkways (Ft.)			X	A livestock trail or walkway constructed to improve grazing distribution and access to forage and water.
450	Anionic Polyacrylamide (PAM) Erosion Control (Ac.)	X			Application of water-soluble Anionic Polyacrylamide (PAM) to meet a resource concern.
397	Aquaculture Ponds (Ac)			X	A water impoundment constructed and managed for commercial aquaculture production.
370	Atmospheric Resource Quality Management (Ac.)	X			A combination of treatments to manage resources that maintain or improve atmospheric quality.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
310	Bedding (Ac.)		X		Plowing, blading, or otherwise elevating the surface of flat land into a series of broad, low ridges separated by shallow, parallel dead furrows.
314	Brush Management (Ac.)		X		Managing and manipulating stands of brush on rangeland, pasture land, and recreation and wildlife areas by mechanical, chemical, or biological means.
322	Channel Bank Vegetation (Ac.)		X		Establishing and maintaining adequate plants on channel banks, berms, spoil, and associated areas.
584	Channel Stabilization (Ft)			X	Stabilizing the channel of a stream with suitable structures.
326	Clearing and Snagging (Ft.)	X			Removing snags, drifts, or other obstructions from a channel.
360	Closure of Waste Impoundments (No.)		X		A constant volume lagoon designed for methane production and recovery in conjunction with a separate waste storage facility.
317	Composting Facility (No.)			X	A facility for the biological stabilization of waste organize material.
327	Conservation Cover (Ac.)		X		Establishing and maintaining perennial vegetative cover to protect soil and water resources on land retired from agricultural production.
328	Conservation Crop Rotation (Ac.)	X			Growing crops in a recurring sequence on the same field.
656	Constructed Wetland (Ac.)			X	A wetland that has been constructed for the primary purpose of water quality improvement.
332	Contour Buffer Strips (Ac.)		X		Narrow strips of permanent, herbaceous, vegetative cover established across the slope and alternated down the slope with parallel, wider cropped strips.
330	Contour Farming (Ac.)	X			Farming sloping lands in such a way that preparing land, planting, and cultivating are done on the contour.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
331	Contour Orchard and Other Perennial Crops (Ac.)	X			Planting orchards, vineyards, or small fruits so that all cultural operations are done on the contour.
340	Cover Crop (Ac.)	X			A crop of close growing grasses, legumes, or small grain grown primarily for seasonal protection and soil improvement. It usually is grown for one year or less, except where there is permanent cover as in orchards.
342	Critical Area Planting (Ac.)		X		Planting vegetation, such as trees, shrubs, vines, grasses, or legumes, on highly erodible or critically eroding areas.
588	Cross Wind Ridges (Ac.)	X			Ridges formed by tillage or planting and aligned across the prevailing wind erosion direction.
589C	Cross Wind Trap Strips (Ac.)	X			Herbaceous cover resistant to wind erosion established in one or more strips across the prevailing wind erosion direction.
402	Dam (No & Ac-ft)			X	A single-purpose dam designed for temporary storage of floodwater and for its controlled release.
348	Dam, Diversion (No)			X	A structure built to divert part or all of the water from a waterway or a stream into a different watercourse, an irrigation canal or ditch, or a water-spreading system.
324	Deep Tillage (Ac.)			X	Loosening the soil, without inverting and with a minimum of mixing of the surface soil, to shatter restrictive layers below normal plow depth that inhibit water movement or root development.
356	Dike (Ft)			X	An embankment constructed of earth or other suitable materials to protect land against overflow or to regulate water.
362	Diversion (Ft.)			X	A channel constructed across the slope with a supporting ridge on the lower side.
554	Drainage Water Management (Ac.)	X			Controlling the removal of surface or subsurface runoff, primarily through the operation of water control structures.
432	Dry Hydrant (No.)			X	A non-pressurized permanent pip assembly system installed into water source that permits the withdrawal of water by suction.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
647	Early Successional Habitat Development/Management (Ac.)		X		Manage early plant succession to benefit desired wildlife or natural communities.
592	Feed Management (No. of Systems and AUs Affected)	X			Management of quantity and quality of feed for livestock.
382	Fence (Ft.)		X		Enclosing or dividing an area of land with a suitable permanent structure that acts as a barrier to livestock, big game, or people.
386	Field Border (Ft.)	X			A strip or perennial vegetation established at the edge of a field by planting or by converting it from trees to herbaceous vegetation or shrubs.
393	Filter Strip (Ac.)		X		A strip or area of vegetation for removing sediment, organic matter, and other pollutants from runoff and wastewater.
394	Firebreak (Ft.)		X		A strip of bare land or fire-retarding vegetation.
396	Fish Passage (Mi.)			X	Modification or removal of barriers that restrict or impede movement or migration of fish or other aquatic organisms.
398	Fish Raceway or Tank (Ft and ft ³)			X	A channel or tank with a continuous flow of water constructed or used for high-density fish production.
399	Fishpond Management (Ac.)	X			Developing or improving impounded water to produce fish for domestic use or recreation.
512	Forage and Biomass Planting (Ac.) (previously Pasture and Hay Planting)		X		Establishing and reestablishing long term stands of adapted species of perennial, biennial, or reseeding forage plants.
511	Forage Harvest Management (Ac.)	X			The timely cutting and removal of forages from the field as hay, greenchop, or silage.
384	Forest Slash Treatment (Ac.)			X	Treating woody plant residues created during forestry, agroforestry and horticultural activities to achieve management objectives.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
666	Forest Stand Improvement (Ac.)			X	To manipulate species composition and stocking by cutting or killing selected trees and understory vegetation.
655	Forest Trails and Landings (Ac.) (655) (1/06)			X	Laying out, constructing and using forest harvest trails and landings.
383	Fuel Break (Ac.)		X		A strip or block of land on which the vegetation, debris and detritus have been reduced and/or modified to control or diminish the risk of the spread of fire crossing the strip or block of land.
410	Grade Stabilization Structure (No)			X	A structure used to control the grade and bank, dam, or wall cutting in natural or artificial channels.
412	Grassed Waterway (Ac.)		X		A natural or constructed channel that is shaped or graded to required dimensions and established in suitable vegetation for the stable conveyance of runoff.
548	Grazing Land Mechanical Treatment (Ac.) (548) (3/03)			X	Renovating, contour furrowing, pitting, or chiseling native grazing land by mechanical means.
561	Heavy Use Area Protection (Ac.)		X		Protecting heavily used areas by establishing vegetables cover, by surfacing with suitable materials, or by installing needed structures.
422	Hedgerow Planting (Ft.)		X		Establishing a living fence of shrubs or trees in, across, or around a field.
603	Herbaceous Wind Barriers (Ft.)		X		Herbaceous vegetation established in rows or narrow strips across the prevailing wind direction.
423	Hillside Ditch (Ft)			X	A channel that has a supporting ridge on the lower side constructed across the slope at definite vertical intervals and gradient with or without a vegetative barrier.
595	Integrated Pest Management (Ac.) (previously Pest Management)	X			Utilizing environmentally sensitive prevention, avoidance, monitoring and suppression strategies, to manage weeds, insects, diseases, animals and other organisms (including invasive and noninvasive species), that directly or indirectly
320	Irrigation Canal or Lateral (Ft.) (320) (3/03)			X	A permanent ditch or side conduit constructed to convey water from the source of supply to one or more farms system.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
388	Irrigation Field Ditch (Ft.)		X		A permanent ditch constructed to convey water from the source of supply to a field or fields in a farms distribution system.
464	Irrigation Land Leveling (Ac.)		X		Reshaping the surface of existing or previously cropped land to be irrigated to planned grades.
436	Irrigation Reservoir (No & Ac-ft)			X	An irrigation water storage structure made by constructing a dam, embankment, pit, or tank.
441	Irrigation System, Microirrigation (No. and Ac.)		X		A planned irrigation system in which all necessary facilities are installed for efficiently applying water directly to the root zone of plants by means of applications (orifices, emitters, porous tubing, perforated pipe) operated under low pressure. The
442	Irrigation System, Sprinkler (No. and Ac.)		X		A planned irrigation system in which all necessary facilities are installed for efficiently applying water by means of perforated pipes or nozzles operated under pressure.
443	Irrigation System, Surface and Subsurface (No. and Ac.)		X		A planned irrigation system in which all necessary water-control structures have been installed for efficient distribution of irrigation water by surface means, such as furrows, borders, contour levees, or contour ditches, or by subsurface means.
447	Irrigation System, Tailwater Recovery (No)			X	A facility to collect, store, and transport excess water from irrigation for reuse in a farm irrigation distribution system.
449	Irrigation Water Management (Ac.)	X			Determining and controlling the rate, amount, and timing of irrigation water in a planned efficient manner.
428	Irrigation Ditch Lining (Ft)		X		A fixed lining of impervious material installed in an existing or newly constructed irrigated field ditch or irrigation canal or lateral.
430*	Irrigation Pipeline (Ft)		X		A pipeline and appurtenances installed to convey water for storage or application as part of an irrigation water system.
460	Land Clearing (Ac.)			X	Removing trees, stumps, and other vegetation from wooded areas.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
543	Land Reclamation, Abandoned Mined Land (Ac)			X	Restoring land and water areas that are adversely affected by past mining practices and increasing the productivity of the areas for a beneficial use.
544	Land Reclamation, Currently Mined Land (Ac)			X	Restoring currently mined land to an acceptable form and for a planned use.
453	Land Reclamation, Landslide Treatment (No & Ac)			X	Treating in place of material, mine spoil (excavated overburden), mine waste, or overburden to reduce down slope movement.
455	Land Reclamation, Toxic Discharge Control (No)			X	Control of acid or otherwise toxic aqueous discharges from abandoned mines or mine waste.
466	Land Smoothing (Ac.)		X		Removing irregularities on the land surface by use of special equipment.
468	Lined Waterway or Outlet (Ft)		X		A waterway or outlet having an erosion-resistant lining of concrete, stone, or other permanent material. The lined section extends up the side slopes to a designed depth. The earth above the permanent lining may be vegetated or otherwise
457	Mine Shaft & Adit Closing (No)		X		Filling underground mines or closing exposed openings.
482	Mole Drain (Ft)		X		An underground conduit constructed by pulling a bullet-shaped cylinder through the soil.
353	Monitoring Well (No.)			X	A well designed and installed to obtain representative ground water quality samples and hydrogeologic information from an aquifer.
484	Mulching (Ac.)	X			Applying plant residues or other suitable materials not produced on the site to the soil surface.
379	Multi-Story Cropping (Ac.)	X			Existing or planted stands of trees or shrubs that are managed as an overstory with an understory of woody and/or non-woody plants that are grown for a variety of products.
590	Nutrient Management (Ac.)	X			Managing the amount, form, placement, and timing of applications of plant nutrients.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
500	Obstruction Removal (Ac.)			X	Removal and disposal of unwanted, unsightly, or hazardous buildings, structures, vegetation, landscape features, trash, and other materials.
582	Open Channel (Ft)			X	Constructing or improving a channel either natural or artificial, in which water flows with a free surface.
516	Pipeline (Ft.)			X	Pipeline installed for conveying water for livestock or for recreation.
378	Pond (No)			X	A water impoundment made by constructing a dam or an embankment or by excavating a pit or dugout.
521C	Pond Sealing or Lining, Bentonite Sealant (No.)	X			A liner for a pond or waste impoundment consisting of a compacted soil-bentonite mixture.
521D	Pond Sealing or Lining, Compacted Clay Treatment (No.)	X			A liner for a pond or waste storage impoundment constructed using compacted soil without soil amendments.
521A	Pond Sealing or Lining, Flexible Membrane (No.)	X			A manufactured hydraulic barrier consisting of a functionally continuous layer of synthetic or partially synthetic, flexible material.
521B	Pond Sealing or Lining, Soil Dispersant (No.)	X			A liner for a pond or waste impoundment consisting of a compacted soil-dispersant mixture.
462	Precision Land Forming (Ac.)		X		Reshaping the surface of land to planned grades.
528	Prescribed Grazing (Ac.)	X			The controlled harvest of vegetation with grazing or browsing animals.
533	Pumping Plant (No.)		X		A pumping facility installed to transfer water for a conservation need, including excess surface or ground water; filling ponds, ditches, or wetlands; or pumping from wells, ponds, streams, and other sources.
550	Range Planting (Ac.)		X		Establishment of adapted perennial vegetation such as grasses, forbs, legumes, shrubs, and trees.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
562	Recreation Area Improvement (Ac.)		X		Established grasses, legumes, vines, shrubs, trees, or other plants or selectively reducing stand density and trimming woody plants to improve an area for recreation.
566	Recreation Land Grading and Shaping (Ac.)			X	Altering the surface of the land to meet the requirements of recreation facilities.
345	Residue and Tillage Management, Mulch Till (Ac.)	X			Managing the amount, orientation, and distribution of crop and other plant residue on the soil surface through mulching.
329	Residue and Tillage Management, No-Till/Strip Till/Direct Seed (Ac.)	X			Any tillage and planting system in which at least 30 percent of the soil surface is covered by plant residue after, planting to reduce soil erosion by water; or, where soil erosion by wind is the primary concern, at least 1000 pounds per acre of flat
346	Residue and Tillage Management, Ridge Till (Ac.)	X			Managing the amount, orientation, and distribution of crop and other plant residue on the soil surface through ridge tillage.
344	Residue Management, Seasonal (Ac.)	X			Managing the amount, orientation, and distribution of crop and other plant residue on the soil surface on a seasonal basis.
643	Restoration and Management of Rare and Declining Habitats (Ac.)			X	Restoring and conserving rare or declining native vegetation communities and associated wildlife species.
391	Riparian Forest Buffer (Ac.)			X	An area of trees and/or shrubs located adjacent to and up gradient from water bodies.
390	Riparian Herbaceous Cover (Ac.)		X		Riparian areas are ecosystems that occur along watercourses or at the fringe of water bodies. Riparian herbaceous cover consists of grasses, grass-like plants, and forbs.
654	Road / Trail / Landing Closure and Treatment (Ft)			X	The closure, decommissioning, or abandonment of roads, trails, and/or landings and associated treatment to achieve conservation objectives.
555	Rock Barrier (Ft.)			X	A rock retaining wall constructed across the slope to form and support a bench terrace that will control the flow of water and check erosion on sloping land.
558	Roof Runoff Structure (No.)			X	A facility for collecting, controlling, and disposing of runoff water from roofs.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
557	Row Arrangement (Ac.)		X		Establishing a system of crop rows on planned grades and lengths primarily for erosion control and water management.
570	Runoff Management System (No. and Ac.)			X	A system for controlling excess runoff caused by construction operations at development sites, changes in land use, or other land disturbances.
610	Salinity & Sodic Soil Management (Ac.)		X		Reducing or redistributing the harmful concentrations of salt and/or sodium in a soil.
798	Seasonal High Tunnel for Crop Production (No.)	X			A seasonal polyethylene covered structure with no electrical, heating, and/or mechanical ventilation systems that is used to cover crops to extend the growing season in an environmentally safe manner.
350	Sediment Basin (No)			X	A basin constructed to collect and store debris or sediment.
646	Shallow Water Development and Management (Ac.)			X	Managing shallow water on agricultural lands and moist soil areas for wildlife habitat.
381	Silvopasture Establishment (Ac.)		X		An agroforestry application establishing a combination of trees or shrubs and compatible forages on the same acreage.
527	Sinkhole and Sinkhole Area Treatment (No)			X	The treatment of sinkholes and/or sinkhole areas to reduce contamination of groundwater resources, and/or improve farm safety.
632	Solid/Liquid Waste Separation Facility (No.)		X		A filtration or screening device, settling tank, setting basin, or settling channel used to separate a portion of solids from a liquid waste stream.
572	Spoil Spreading (Ac.)			X	Disposing of surplus excavated materials.
574	Spring Development (No)			X	Improving springs and seeps by excavating, cleaning, capping, or providing collection and storage facilities.
578	Stream Crossing (No.)			X	A stabilized area or structure constructed across a stream to provide a travel way for people, livestock, equipment, or vehicles.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
395	Stream Habitat Improvement and Management (Ac.)			X	Improving a stream channel to make a new fish habitat or to enhance an existing habitat.
580	Streambank and Shoreline Protection (Ft.)			X	Using vegetation or structures to stabilize and protect banks of streams, lakes, estuaries, or excavated channels against scour and erosion.
585	Stripcropping (Ac.)	X			Growing crops in a systematic arrangement of strips or bands on the contour to reduce water erosion.
587	Structure for Water Control (No.)			X	A structure in an irrigation, drainage, or other water management system that conveys water, controls the direction or rate of flow, or maintains a desired water surface elevation.
606	Subsurface Drain (Ft.)		X		A conduit; such as plastic tubing, tile, or pipe; installed beneath the ground surface to collect and/or convey drainage water.
607	Surface Drainage (Ft)		X		A graded ditch for collecting excess water in a field.
608	Surface Drainage, Main or Lateral (Ft)		X		An open drainage ditch constructed to a designed size and grade.
609	Surface Roughening (Ac.)	X			Roughening the soil surface of a cultivated field by ridge or clod forming tillage.
600	Terrace (Ft)			X	An earth embankment, a channel, or a combination ridge and channel constructed across the slope.
568	Trails and Walkways (Ft.) (previously Recreation Trails and Walkways)			X	A pathway prepared especially for pedestrian, equestrian, and cycle travel.
612	Tree/Shrub Establishment (Ac.)		X		Establishing woody plants by planting or seeding.
660	Tree/Shrub Pruning (Ac.)	X			Removing all or selected branches from trees and shrubs.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
490	Tree/Shrub Site Preparation (Ac.)		X		Treating areas to encourage natural regeneration of desirable trees and shrubs, or to permit artificial regeneration by planting or direct seeding.
620	Underground Outlet (Ft)		X		A conduit installed beneath the surface of the ground to collect surface water and convey it to a suitable outlet.
645	Upland Wildlife Habitat Management (Ac.)		X		Creating, maintaining, or enhancing areas, including wetland, for food and cover for upland wildlife.
635	Vegetated Treatment Area (Ac)		X		An area of permanent vegetation used for agricultural wastewater treatment.
601	Vegetative Barriers (Ft.)		X		Permanent strips of stiff, dense vegetation along the general contour of slopes or across concentrated flow areas.
630	Vertical Drain (No)			X	A well, pipe, pit, or bore hole in porous, underground strata into which drainage water can be discharged.
367	Waste Facility Cover (No.)	X			A fabricated rigid, semi-rigid, or flexible membrane over a waste treatment or storage facility.
313	Waste Storage Facility (No.)			X	A fabricated structure for temporary storage of animal wastes or other organic agricultural wastes.
634	Waste Transfer (No)		X		A waste conveyance system using structures, conduits, or equipment.
629	Waste Treatment (No.)		X		The mechanical, chemical or biological treatment of agricultural waste.
359	Waste Treatment Lagoon (No.)			X	An impoundment made by excavation or earth fill for biological treatment of animal or other agricultural waste.
633	Waste Utilization (Ac.)		X		Using agricultural waste or other waste on land in an environmentally acceptable manner while maintaining or improving soil and plant resources.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.	PRACTICE DESCRIPTION
	REQUIRED FIELD DOCUMENTATION	CPA-52, "Note to File"	APE Map, CRRW, WA-CPA-52	APE Map, Topo Map, Oral History, CRRW, WA-CPA-52	
638	Water and Sediment Control Basin (No)			X	An earth embankment or a combination ridge and channel generally constructed across the slope and minor watercourses to form a sediment trap and a water detention basin.
636	Water Harvesting Catchment (No.)		X		A facility for collecting and storing precipitation.
642	Water Well (No.)			X	A well constructed or improved to provide water for irrigation, livestock, wildlife, or recreation.
614	Watering Facility (No.)			X	A trough or tank, with needed devices for water control and waste water disposal, installed to provide drinking water for livestock.
640	Waterspreading (Ac)		X		Diverting or collecting runoff from natural channels, gullies, or streams with a system of dams, dikes, ditches, or other means and spreading it over relatively flat areas.
351	Well Decommissioning (No.)			X	The sealing and permanent closure of a water well that is not longer in use.
355	Well Water Testing (Ac)	X			Testing for physical, biological and chemical characteristics of well water.
658	Wetland Creation (Ac)			X	A wetland that has been created on a site location which historically was not a wetland or is a wetland but the site will be converted to a wetland with a different hydrology, vegetation type, or function than naturally occurred on the site.
659	Wetland Enhancement (Ac.)			X	The modification or rehabilitation of an existing or degraded wetland, where specific functions and/or values are modified for the purpose of meeting specific project objectives. Some functions may remain unchanged while others may be degraded.
657	Wetland Restoration (Ac)			X	Construction or restoration of a wetland facility to provide the hydrological and biological benefits of a wetland.
644	Wetland Wildlife Habitat Management (Ac.)	X			Retaining, creating, or managing wetland habitat for wildlife.
380	Windbreak/Shelterbelt Establishment (Ft.)		X		Linear plantings of single or multiple rows of trees or shrubs for environmental purposes.

PS #	PRACTICE NAME	Undertakings that do not have Potential to Affect Historic Properties	Undertakings that do not have Potential to Affect Historic Properties UNDER THE FOLLOWING CONDITIONS: When practice installation does not extend beyond the previously tilled soil zone, or does not result in ground/surface disturbance for the first time. If planned practice implementation does not meet these conditions, NRCS Cultural Resource Specialist review is required.	REQUIRES CULTURAL RESOURCE SPECIALIST REVIEW: Based on site specific information, a NRCS Cultural Resource Specialist will determine if Section 106 consultation will be initiated.
