WASHINGTON BULLETIN WA300-9-14

SUBJECT: WRP Ranking Worksheet

Purpose. To transmit updated Ranking Criteria Worksheet

Expiration Date. September 30, 2009

This bulletin transmits the current 2009 WRP Ranking Criteria Worksheet. The primary reason for updating is to load the new Geographic Area Rate Cap (GARC) data which are, Westside Cropland, Westside Pasture, Eastside Cropland and Eastside Pasture. There are some other changes to ensure proper data entry but the instructions are the same. This worksheet will be used for all 2009 rankings.

The new ranking criteria worksheet is also posted on the NRCS Washington State website.

Contact Chad Dunnahoo if you have questions.
