WASHINGTON BULLETIN WA210-9-4

SUBJECT: ENG - "Managing Woodland Roads" A Field Handbook

Purpose. To transmit Oregon State University Extension publication to the Washington Area and Field Offices.

Expiration Date: September 30, 2009

This publication can be used in the field during onsite inventory of forest roads. It can be a useful field tool for showing landowners proper road maintenance applications to reduce stream sedimentation and road erosion. Used in conjunction with Engineering Technical Note 1 and Access Road (560) it will aid in forest road erosion control planning and design, and landowner awareness. Offices should receive this handbook within 3-4 days after this bulletin.
