WASHINGTON BULLETIN WA 190-10-4

SUBJECT: ECS - Cultural Resources in Conservation Planning: Conservation Stewardship Program (CSP) - Enhancement Linkage to NRCS Conservation Practice Standards

Purpose. To transmit a revision to the list of NRCS conservation practices for use by field staff in consideration of cultural resources for CSP.

Expiration Date. July 30, 2011

A revision has been made to the list that links CSP enhancements to specific conservation practices. CSP enhancement ANM18 (Retrofit watering facility for wildlife escape) is now linked to NRCS Conservation Practice Standard 645 (Upland Wildlife Habitat Management).

**Action Required:**

Replace the list sent out as an attachment to Washington Bulletin WA 190-10-3 with the revised attached list dated 7/30/10.

The previous guidance sent out under WA 190-10-3 still applies: the environmental and cultural resources compliance for the Conservation Security Program and Conservation Stewardship Program (CSP) will be conducted in the same manner as compliance for other NRCS conservation programs. Refer to the attached list that links CSP enhancements to specific conservation practices. For purposes of cultural resources compliance, CSP enhancements shall be considered the same as the associated conservation practice. Where N/A is indicated under NRCS practice name, the enhancement will require review by an Area Cultural Resource Specialist.

Questions may be directed to Paul Scales, State Resource Conservationist, at [paul.scales@wa.usda.gov](mailto:paul.scales@wa.usda.gov) or Jenifer Coleson, Cultural Resources Coordinator at [jenifer.coleson@wa.usda.gov](mailto:jenifer.coleson@wa.usda.gov).
