Irrigation and Nitrogen Management to Improve Nitrogen Fertilizer Efficiency

The enclosed paper by Drs. Jeff C. Stark, University of Idaho Agronomist, Aberdeen, Idaho; I. R. McCann, University of Idaho Agricultural Engineer, Aberdeen, Idaho; Dale T. Westermann, ARS Soil Scientist, Kimberly, Idaho and Terry A. Tindal, Cooperative Extension Soil Scientist, Twin Falls, Idaho gives the latest technology on fertilizing potatoes.

This paper provides some important insights on amounts of nitrogen needed for potatoes and nitrogen management for high yield and water quality.
