	<u>Subpart E – Telephone</u>	
ID402.0	Satellite Phones.	ID120-402-E-1

Part 402 – Communications
Subpart E – Telephone

ID402.0

ID402.0 Satellite Phones

Every field office in Idaho has one satellite phone. The phones are for EMERGENCY USE ONLY. Employees can now carry the satellite phone when they are working in remote areas, in case they need to call for help and there is no cell phone coverage.

It is the District Conservationist's responsibility to make sure the phone is in operating condition, to see that it is used for emergency use only and to assign the phone to the appropriate person(s).

For further guidance on property management refer to General Manual Title 120, Part 405, Subpart D – Personal Property.
