

Part 404 – Land Treatment Long-Term Contracting

Subpart B – Application for Assistance

ID404.14 Priority Rating

Priority rating system. The state conservationist shall develop a system for determining the priority in which technical assistance is to be given to eligible applicants for developing plans of operations and contracts. The system shall be so devised to give highest priority to applicants with the most severe problems as defined in the planned objectives, program objectives or other national guidelines. **See attachment for the priority rating system developed for the Southern Washington County PL 566 Project.**
