

RANKING WORKSHEET
Surface Water Irrigated Land

2/28/03

Problems	Points Available	Points Taken
Wind Erosion	20	_____
Streambank Erosion	10	_____
Concentrated Flow Erosion	10	_____
Irrigation Induced Erosion	20	_____
Water Management For Irrigated Land	15	_____
Surface Water Nutrients & Animal Wastes	15	_____
Surface Water - Suspended Sediment & Turbidity	15	_____
Surface Water Pathogens	10	_____
Air Quality Airborne Sediment - Safety Offsite	15	_____
	130	
Other Considerations		
303d Listed Streams	10	_____
T&E Species	10	_____
Ground Water Quality Considerations	10	_____
County is declared Drought Related Disaster Area	20	_____
Reduced erosion from I.I. & Wind 1-5 tons per acre/year	5	_____
Reduced erosion from I.I. & Wind 5.1-10 tons per acre/year	10	_____
Reduced erosion from I.I. & Wind > 10 tons per acre/year	15	_____
*Irrigation Water Conservation		
a. Developing tail water recovery systems	10	_____
	75	

Total Points Taken (Transfer to Cover Sheet under "Applicants Score")

REMEMBER: Points taken for resource issues identified must have corresponding practices in the contract to correct the resource problem.
