

# TECHNICAL NOTES

USDA-Natural Resources Conservation Service  
Boise, Idaho

TN RANGE NO.71

MARCH 1999

The attached Range Technical Note No 71, "Grazing Management for Riparian-Wetland Areas," provides a good overview and management concepts for grazing riparian areas. The publication was developed by an interagency team and provides the latest technology for grazing management in riparian areas.

File this in the Range Section of the Technical Notes, Section VI of the Technical Guide.
