## INDEX FOR ENGINEERING TECHNICAL NOTES

1. Anodes for Corrosion Control, January 12, 1981.
2. Estimating Sediment Concentrations by Imhoff Cone in Runoff Water from Silt Loam Soils, December 16, 1981.
3. Design Considerations for Concrete Block Structures, December 16, 1981.
4. Design of Polyvinyl Chloride (PVC) Pipe, March 26, 1982.
5. Hydrology – Calculated Risk, August 12, 1960.
6. Design of Dumped rock Riprap Stream Channel Stabilization, December 20, 1991.
7. External Load Design of PVC Pipe, March 22, 1993.
8. Determining the Size of the Most Cost – Effective In – Line Valve for Pipelines Pressurized by Electric Power, July 30, 1993.
9. Specification, May 22, 1961.
10. Hydrology – Tabulation of Idaho Stream Flow Data, Preparation of Frequency Curves, September 22, 1961.
11. Concrete Admixtures, January 24, 2000.
12. Design of Stream Barbs, July 1, 2001
13. Design of Rock Weirs, February 1, 2001
14. Photo – Topog Method for Farm Planning Surveys, July 1, 1963.
15. Incorporation of Large Wood into Engineering Structures, June 1, 2001
16. Filter Diaphragms for CO-01 Structures, April 2003
17. Above-Ground Applications for Polyethylene Pipe, December 15, 2004

18. Idaho Legal Districts, March 2, 1967.

19.

20.

21.

22.

23.

24.

25.

26.

27.

28.

29.

30. Computation Standards for Idaho, 1975
