

TECHNICAL NOTES

USDA-Natural Resources Conservation Service
Boise, Idaho

TN RANGE NO. 72

March 1999

The attached Range Technical Note No 72, "A User Guide to Assessing Proper Functioning Condition and the Supporting Science for Lotic Areas," is the reference document for the Proper Functioning Condition (PFC) training provided by the interagency PFC Training Cadre. It was developed to further the understanding of the Proper Functioning Condition assessment method.

It includes information previously presented by instructors, but not present in the training documents and much of what has been learned from field practitioners experience with this methodology.

File this in the Range Section of the Technical Notes, Section VI of the Technical Guide.
