Animals Enhancement Activity – ANM21-Prairie Restoration for Grazing and Wildlife Habitat

ATTACHMENT A – Montana Enhancement Activity Sheet Supplement

Seeding or planting mixtures for this enhancement will be determined by the local NRCS Field Office using the appropriate Ecological Site Description(s) for the acres to be restored. Seeding rates will be determined using Range and Pasture Technical Note No. MT-33 and Plant Materials Technical Note No. MT-46. At least three species of *native* grasses, two species of *native* forbs and one *native* shrub species (if appropriate for the ecological site) will be seeded or planted.
