Water Quantity Enhancement Activity – WQT04–Regional Weather Networks for Irrigation Scheduling

ATTACHMENT A – Montana Enhancement Activity Sheet Supplement

There are 26 Agrimet stations located in Montana.

Documentation Requirements:

Provide printouts of the weather network crop ET values used in the scheduling of irrigation if the weather network is free.

Documentation of soil moisture deficit accounting throughout the growing season demonstrating that moisture was managed between field capacity and the management allowed depletion (MAD). There can't be more than 5 deviations above or below these levels per season.
