

WELL CONSTRUCTION SPECIFICATIONS COVER SHEET

Land User _____
Job Description _____
Location _____
Assisted by: _____ Field Office: _____

It is the responsibility of the owner to obtain all necessary permits and/or rights, and to comply with all ordinances and laws pertaining to this construction.

Construction shall be in accordance with the following special provisions:

1. The driller for this well shall be a Licensed Water Well Contractor for the State of Montana.
2. A Geology Report will be utilized to estimate drilling depths. The drilling depth has been estimated to be _____ feet to obtain the required production rate of _____ gallons per minute (gpm). **NRCS will not provide financial assistance for dry wells or wells that do not produce adequate water for the intended purpose.** Upon request by the contract holder, NRCS may provide cost share to drill deeper than the original estimate through a contract modification, approved by the Assistant for Field Operations or Assistant for Programs in consultation with the NRCS Geological Services Unit Geologist.
3. Upon completion of the well development, a copy of the Montana Well Log Report, Form 603 R2-04, and the Pumping Plant Certification of Installation, NRCS Form MT-ENG-533 shall be submitted to the NRCS Field Office. Both forms will be required for completion and payment of the well and pump installation. The Montana Well Log Report, Form 603 R2-04 shall also be sent to:

Montana Groundwater Information Center
Montana Bureau of Mines and Geology
1300 West Park Street
Butte, Montana 59701-8931

4. The installed well and all materials (well casing, screens, etc.) shall comply with all State of Montana requirements.

Administrative Rules of Montana at: <http://www.mtrules.org/gateway/ChapterHome.asp?Chapter=36%2E21>

Montana Codes Annotated at: Title 37, Chapter 43: http://data.opi.mt.gov/bills/mca_toc/37_43.htm

The pump installation requires an Electrical Permit and a pump performance curve if an electric pump is installed.

Owner/Operator Review

I have reviewed the special provisions, and agree to construct this project in accordance with them. Modifications to the special provisions during construction will require approval from the NRCS and Program Manager, Board of Water Well Contractors, prior to installation.

I agree to obtain all the necessary permits, easements, and water rights. I agree to comply with all Federal, State, Tribal, and local laws and regulations pertaining to this construction.

I acknowledge responsibility for marking private underground utilities affected by the project. The well contractor will call the Utility Notification Center at least 48 hours before work begins to ensure that all publicly owned underground utilities will be marked. The "Call Before You Dig" phone number for Montana is 811 or 1-800-424-5555.
