Water Quality Enhancement Activity – *WQL23-Protection of Sensitive Areas on Winter Grazing Land*

ATTACHMENT A – Montana Enhancement Activity Sheet Supplement

Criteria

1. Producers are required to use one type of alternative shelter to provide livestock with protection from wind.
2. Alternative shelter design criteria and placement must follow state Land Grant University guidelines or NRCS design criteria
3. Fabricated shelter designs will meet the need of the entire herd
4. Supplemental feeding or mineral supplements will not be permitted within ¼ mile (1,320 feet) of riparian areas, water courses, or water bodies
5. Woody draws are also considered sensitive areas
