

ENR03 - Montana Supplement

Pumping Plant powered by renewable energy – (Energy Enhancement Activity)

Montana Clarification

This enhancement requires the use of renewable energy (solar or wind) or the use of “green power” produced from solar or wind. The conversion of a diesel or electric system to a gravity system does not qualify.

Montana Specifications

No additional specifications other than those described in the national enhancement.

Incompatible Enhancements

This enhancement may not be contracted with the following enhancements:

- For crop: ENR09
- For pasture: ENR06, ENR09
- For range: none

Eligible Land

Crop, pasture and rangeland

Applicable Amount

Number of existing pumping plants

Example (Actual)

The applicant has three irrigation systems and will retrofit all 3 – 2 in year 1 and 1 in year 2 of the contract. The applicable amount is 3. The Toolkit plan would look like the following:

	Year 1	Year 2	Year 3	Year 4	Year 5
ENR03	2.0	1.0	0	0	0

Documentation Requirements

1. Document with photographs the installation of the solar or wind unit.
2. Provide a pump curve that corresponds to the solar or windmill.
3. Provide written certification stating that green power was purchased from a utility company (if applicable).

I acknowledge that I have read and understand all that is required for the implementation of this CSP Enhancement Activity.
