

## **ANM18 - Montana Supplement – REVISED 2/22/11**

### **Retrofit Watering Facility for Wildlife Escape - (Animal Enhancement Activity)**

#### **Montana Clarification**

Watering Facility (MT-614) states that a grippable long lasting material is adequate when selecting escape ramps. Painting and coating are not required. Montana will not require more than 2 ramps per tank.

#### **Montana Specifications**

- An 8 to 10 foot diameter tank would require one ramp.
- Tanks greater than 10 foot diameter would require two ramps.
- Montana will not require more than 2 ramps per tank.

#### **Incompatible Enhancements**

This enhancement may not be contracted with the following enhancements:

For pasture: none

For range: none

For forest: none

#### **Eligible Land**

Crop, pasture and rangeland

#### **Applicable Amount**

Number of existing water facilities. (Do not count enclosed winter waterers.)

#### **Example (Actual)**

The applicant has 3000 acres of rangeland. There are 15 tanks on the units and 7 of them already have escape ramps. The applicable amount is still 15. The applicant is willing to implement this activity on the remaining eight tanks a year starting in year 2. Plan each in the year it will be applied.

	<b>Year 1</b>	<b>Year 2</b>	<b>Year 3</b>	<b>Year 4</b>	<b>Year 5</b>
<b>ANM18</b>		<u>4</u>	<u>4</u>	0	0

#### **Documentation Requirements**

Producer will provide a date stamped photograph that clearly shows properly installed escape/access device for each water facility.

I acknowledge that I have read and understand all that is required for the implementation of this CSP Enhancement Activity.
