Water Quality Enhancement Activity – WQL07–*Split nitrogen applications, 50% after crop emergence or pasture green up*

ATTACHMENT A – Montana Enhancement Activity Sheet Supplement

Montana Documentation Requirements for Split Nitrogen Applications

1. Written documentation for each treatment area (field) and year of this enhancement describing these items:

- a. Acres
- b. Planned crop
- c. Planting date and crop planted
- d. Date of crop emergence
- e. Annual manure analysis results (if organic nutrient sources are used)
- f. Crop yields (both yield goals and measured yield)
- g. Nutrient application rates / amounts and application dates for each treatment area
- h. Soil test results for each treatment area (field) on an annual basis.**

2. A map showing fields where the activities are applied
