

### **WQL03 - Montana Supplement – REVISED 2/22/11**

#### **Rotation of Supplement and Feeding Areas – (Water Quality Enhancement Activity)**

##### **Montana Clarification**

This enhancement includes summer mineral movement and winter feeding movement.

##### **Montana Specifications**

No additional specifications other than those described in the national enhancement.

##### **Incompatible Enhancements**

This enhancement may not be contracted with the following enhancements:

For pasture: ANM23

For range: ANM23

For forest: PLT05, SQL07

##### **Eligible Land**

Pasture, range or forest

##### **Applicable Amount**

Acres of pasture, range or forest

##### **Example (System)**

The applicable acres are all grazed pastureland, rangeland and forestland. Therefore if a participant has 3000 acres of rangeland and grazeable woodlands but only winter feeds in a 750 acre pasture close to the headquarters, the applicable acres would be 3000 acres. If beginning in Year 1, the Toolkit plan would look like this:

	<b>Year 1</b>	<b>Year 2</b>	<b>Year 3</b>	<b>Year 4</b>	<b>Year 5</b>
<b>WQL03</b>	750 ac				

##### **Documentation Requirements**

A map showing actual locations of supplement and feeding areas in each pasture and a schedule showing how the supplement and feeding areas were moved each year.

I acknowledge that I have read and understand all that is required for the implementation of this CSP Enhancement Activity.
