

SECTION ALONG C OF PIPE

*Not to Scale*

**NOTES:**

1. Minimum gage of pipe end plate shall be same gage as conduit.
2. Weld between end plate and pipe conduit conduit shall be watertight and covered with two coats of zinc-oxide paint.
3. The end plate shall be measured from the valley of the corrugations.
4. For further details see Missouri Construction Specification 378, Pipe Spillway.
