

## ***SAVE THE DATES!***

### **Farm, Ranch, & Range Management Workshops**

**Wed., March 13<sup>th</sup>, 2013**

at Goliad County Groundwater District Office  
118 S. Market St., Goliad  
Time: 1:00 pm

**Thurs., March 14<sup>th</sup>, 2013**

at the Beer Warehouse  
1302 South 2nd St @ C St., Floresville  
Time: 10:00 am

Join us to learn more about land management programs for landowners, managers, and agricultural producers. These free meetings will provide landowners information on available conservation programs, resources and personnel available to help achieve better long-term management of your property. Join us to learn more about technical and financial assistance available to assist you in achieving your goals.

Experts in land management and resource conservation will share about planning and decision making, while highlight strategies and practices that will protect your land's natural assets. Attendees will also hear about the resource issues facing communities along the San Antonio River.

The Texas State Soil and Water Conservation Board (TSSWCB), USDA-Natural Resources Conservation Service (NRCS), and the local Soil and Water Conservation District (SWCDs) have partnered to provide these free workshops.

**For more information or special needs at workshops, contact either:**
