

Iowa Addendum: Animal Enhancement Activity – ANM37 – Prescriptive grazing management system for grazed lands (includes expired CRP grass/legume or tree covered acres converted to grazed lands)

1. No disturbance during the nesting season from May 15 through July 15.
2. Residual plant heights shall not be less than 6 inches.
3. Prescribed Grazing Plan is required with this enhancement

Certification of Enhancement Completion:

| | | | |
|-----------------------|------|--------|-----------------|
| Signature of Producer | Date | Fields | Acres or Number |
|-----------------------|------|--------|-----------------|

Include written documentation for each treatment area and year of this enhancement including:

- _____ A copy of the written grazing management plan.
The schedule of when grazing activities occurred documenting that grazing activities were deferred to meet the 20% requirement.
- _____ A map showing the acreage where these grazing activities were applied.
- _____ A photograph of each watering facility with a properly installed escape/access device.
- _____ A map showing where wildlife friendly fence is located with the type (s) of wildlife friendly fencing identified.
- _____ Photograph of each wildlife friendly fencing method used.
