ILLINOIS AGRICULTURAL WASTE MANAGEMENT FIELD HANDBOOK - NOTICE 22

Subject: National Engineering Handbook Part 651, Engineering Technical Materials

Purpose: Remove outdated Illinois Supplement 11-18, Table IL 11-5 from AWMFH.

Effective Date: Upon receipt.

Explanation: The existing Illinois supplement to Chapter 11 of the Agricultural Waste Management Field Handbook (AWMFH), Table IL 11-5 (Suggested Average Nutrient Content of Manure) was developed using outdated sources. Conservation Practice Standard 590 – Nutrient Management requires a manure analysis for any existing manure sources, and information included in the national AWMFH Chapters 4 and 11 can be used to estimate nutrient content of proposed waste structures. A supplementary table of suggested average nutrient content of manure is no longer needed.

With this Notice, AWMFH Supplement IL 11-18 is withdrawn.

The Illinois NRCS engineering website will be updated to remove the withdrawn supplement at http://www.il.nrcs.usda.gov/technical/engineer/eng_index.html.

Filing Instructions for holders of Agricultural Waste Management Field Handbook binders:

1. Remove and archive AWMFH Chapter 11 IL supplement page 11-18.

Any questions regarding this submittal should be directed to the Area Engineer.

A handwritten signature in black ink, appearing to read "Ivan N. Dozier".

IVAN N. DOZIER
