

Volunteers Needed To Count Butterflies

North American Butterfly Association

Saturday, July 13, 2013

Manhattan Plant Materials Center

9 a.m. to 2:30 p.m.

Register by Wednesday, *July 10*,
or for more information,
please call 785-539-8761

Dress appropriately for the weather and bring a sack lunch and binoculars and camera (if you have them). Volunteers around North America select a count area 15 miles in diameter and conduct a one-day census of all butterflies observed within that circle. The count program is intended to promote interest in butterflies and provide results useful for scientific monitoring of this beautiful and fascinating group of insects. While knowledge of butterflies is a plus, it is not necessary.

Manhattan Plant Materials Center (PMC)
3800 South 20th Street
Manhattan, KS 66502
