IOWA BULLETIN NO. IA210-13-2

SUBJECT: ENG – IOWA PERMIT FACT SHEET

PURPOSE. To notify personnel that an Iowa Fact Sheet entitled "Iowa Permit Fact Sheet" has been placed on the Iowa Engineering web page.

EXPIRATION DATE. September 30, 2014

Many conservation practices involve activities which are regulated by other agencies of the state and/or federal government. There has not been a reference readily available that discusses these types of permits, when they are required, and how to apply for them.

A Fact Sheet has been developed which describes permits that are required for implementation of many conservation practices. The Fact Sheet contains links to various websites which provide the detailed information needed to determine if a specific permit is required. The Fact Sheet is located on the Iowa Engineering web page at

http://www.nrcs.usda.gov/Internet/FSE_DOCUMENTS/stelprdb1185756.pdf

It should be noted that this Fact Sheet does not include any permits that are required for livestock or waste management/storage facilities.

This Iowa bulletin will be posted on the Iowa NRCS Employee website, which can be accessed at [Iowa NRCS eDirectives website](#) under the Iowa NRCS eDirectives System section.

If you have any questions please contact Allen Gehring, State Conservation Engineer, at 515-323-2220 or allen.gehring@ia.usda.gov.
