Cummins Creek Watershed Association

STATE OF TEXAS

and the

SOIL CONSERVATION SERVICE

UNITED STATES DEPARTMENT OF AGRICULTURE

Whereas, application has heretofore been made to the Secretary of Agriculture by the Burleson-Lee Soil Conservation District, Bastrop-Fayette Soil Conservation District, Colorado Soil Conservation District, Austin-Washington Soil Conservation District, Fayette County Commissioners Court, Colorado County Commissioners Court and Cummins Creek Watershed Association, State of Texas, hereinafter referred to as the local organization, for assistance in preparing a plan for works of improvement for the Cummins Creek Watershed, State of Texas, under the authority of the Watershed Protection and Flood Prevention Act (Public Law 566, 83rd Congress, 68 Stat, 666); and

Whereas, the responsibility for administration of the Watershed Protection and Flood Prevention Act has been assigned by the Secretary of Agriculture to the Soil Conservation Service, hereinafter referred to as the Service; and

Whereas, there has been developed through the cooperative efforts of the local organization and the Service a mutually satisfactory plan for works of improvement for said watershed, designated as the watershed work plan for Cummins Creek Watershed, State of Texas, which watershed work plan is annexed to and made a part of this agreement; and

Whereas, the watershed work plan describes the watershed and its problems, and sets forth a plan for works of improvement including a schedule of operations,

the kinds and quantities of measures to be installed, the estimated cost, cost-sharing arrangements, maintenance and other responsibilities of those participating in the project, and economic justification for installing, operating and maintaining the works of improvement; and

Whereas, the Watershed Protection and Flood Prevention Act provides (a) that the local organization and the Secretary of Agriculture shall agree on the watershed work plan prior to participation by the Secretary of Agriculture in the installation of the works of improvement as set forth in said plan, and (b) that, at least forty-five days (while Congress is in session) before such installation involving Federal assistance is commenced, the watershed work plan and the justification therefor shall be transmitted by the Secretary of Agriculture to the Congress through the President;

Now, therefore, in view of the foregoing considerations, the local organization and the Secretary of Agriculture, through the Service, hereby agree on the watershed work plan, and further agree that the works of improvement as set forth in said plan will be installed, operated, and maintained substantially in accordance with the terms, conditions, and stipulations provided for therein.

It is further understood that this agreement does not constitute a financial document to serve as a basis for the obligation of Federal funds, and that financial and other assistance to be furnished by the Service in carrying out the watershed work plan is contingent on the appropriation of funds for this purpose and on the execution of supplemental agreements setting forth the cost-sharing arrangements and other conditions that are applicable to specific works of improvement.

It is further agreed that the watershed work plan may be amended or revised, and that this agreement may be modified or terminated, only by mutual agreement of the parties hereto.

No member of or Delegate to Congress shall be admitted to any share or part of this agreement, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this agreement if made with a corporation for its general benefit.
