

This soil survey was compiled by the U.S. Department of Agriculture, Natural Resources Conservation Service and cooperating agencies. Base maps are orthophotographs prepared by the U.S. Department of the Interior, Geological Survey, from 1994-1999 aerial photography. The orthophotographs or other base map on which the soil lines were compiled and digitized differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident. Administrative boundaries were acquired from the State of New York. Boundaries may have been edited to conform with features represented on the publication or topography or to enhance the clarity of the soils information.

North American Datum of 1983 (NAD83), GRS80 Spheroid 1000-meter ticks: Universal Transverse Mercator, zone 18. Coordinate grid ticks and land division data, if shown, are approximately positioned. Digital data are available for this quadrangle.
