

Affinity Northern White Cedar

(*Arborvitae*)
Thuja occidentalis L.

'Affinity' is a fast growing, compact, upright tree with

good seedling vigor.

Use: Intended for field and farmstead windbreaks and screen or border planting in recreational or urban areas. 'Affinity' is an important source for winter browse.

'Lancer' Perennial Pea

Lathyrus latifolius L.

'Lancer' is an attractive, deep-rooted legume.

Use: Planted along roadsides for beautification. Used in seed mixtures with grasses and other legumes to establish cover in critically eroding areas. Also provides cover and some food for wildlife

Icy Blue Germplasm Canada Wildrye

Elymus canadensis L.

Icy Blue is a native perennial bunchgrass that grows to four

feet tall with erect or arching culms. Its whitish, waxy bloom, gives it a distinctive 'icy blue' color.

Use: Prairie restoration, erosion control and wildlife habitat enhancement.

Alcona and Marion Germplasm Dillenius' Tick-Trefoil

Desmodium glabellum (Michx) DC

These native perennial forbs grow from 2 ½ to 5 ft. in height.

Use: They are an excellent food source for upland game birds and songbirds and is also an excellent deer browse.

'Roselow' Sargent Crabapple

Malus sargentii Rehde

'Roselow' is a short, compact, woody plant.

Use: Windbreak for field and farmstead. It produces an

abundance of tiny red fruit, attractive to wildlife.

Riverbend Germplasm Silky Willow

Salix sericea Marshall

Riverbend is a tall, erect, multi-branched native shrub that grows to 12 feet in height.

Use: Intended for use in streambank/shoreline restoration and riparian corridors.

'Indigo' Silky Dogwood

Cornus amomum Mill

'Indigo' is a dense, multi-stemmed

woody plant that grows to a height of ten feet.

Use: Can be used in multi-row field windbreaks and farmstead windbreaks. It is a good source of food for wildlife and is also used for beautification and landscaping.

Koch Germplasm Prairie Sandreed

Calamovilfa longifolia (Hook) Scribn

Koch is a perennial, native, warm-season grass that grows stalks from 2-6 feet tall.

Use: Intended for wind erosion control, dune stabilization and water quality improvement in coastal zones.

Leelanau Germplasm Highbush Cranberry

Viburnum opulus L. var. *americanum* Aiton

Leelanau is a tall, native shrub that grows to a height of 13 feet.

Use: Intended for use as a windbreak.

'Imperial' Carolina Poplar

Populus x.canadensis Moench

'Imperial' is a tall fast growing tree shaped somewhat like a pyramid.

Use: Good as a windbreak especially around orchards because it is deciduous and does not interfere with air circulation in the spring.

Grant Germplasm Panicleleaf Tick-Trefoil

Desmodium paniculatum (L.) DC

Grant is a multi-stemmed, native perennial legume that grows up to 4 feet tall.

Use: Grant is intended for use in wildlife food plots. It

is a good food source for several upland game birds and song birds and an excellent deer browse.

'Magenta' Hybrid Crabapple

Malus sp.

'Magenta' hybrid crabapple is an attractive compact tree reaching heights of up to 30 ft. with a symmetrical rounded

crown.

Use: Magenta is intended for windbreaks, and wildlife food and cover.

East Lansing, Michigan

**Vintage Germplasm
Common Elderberry**
Sambucus nigra L. ssp. *canadensis*
(L.) R. Bolli
Vintage Germplasm
Common Elderberry is a
stoloniferous, multi-
stemmed, and native
perennial shrub.
Use: It is intended for use
in streambank and shoreline stabilization. It can be
used for enhancement of riparian corridors and
provide food and shelter for wildlife

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326 W. Whitten Building, 14th and Independence Avenues, SW, Washington DC 20250-or call (202) 720-5964 (Voice or TDD). USDA is an equal opportunity provider and employer.

Big Bluestem

Big Bluestem can reach a height of 8 feet. It is leafy at the base with long silky hairs that are widely dispersed on the upper surface.

Switchgrass

Switchgrass can reach a height of 7 feet. A dense mat of white, silky hairs extends from the ligule onto the upper leaf surface.

Indiangrass

Indiangrass can reach a height of 6 feet. The narrow plum like seed heads turn golden at maturity.

Little Bluestem

Little bluestem grows from 2-4 feet. Leaves are slightly folded and become reddish brown at maturity.
