

FY2022 EQIP Conservation Activity Plan (CAP)

CAP Applicability Question

1. Is the application for the development of a Conservation Activity Plan (CAP)?

CAP Category Question

1. Is the land included in the application located in the state of Massachusetts?
 - a. Massachusetts
 - b. Otherwise

CAP Program Questions

1. Is the land included in the application located within the MA Source Water Protection Area?
 - a. Source Water Protection Area
 - b. Otherwise

CAP Resource Questions

1. Is the application for the development of a CAP that will provide benefits to Massachusetts agriculture and/or wildlife?

CAP Practices

- Agricultural Energy Assessment (228)
- Agricultural Energy Design (120)
- Carbon Sequestration and Greenhouse Gas Mitigation Assessment (218)
- Comprehensive Nutrient Management Plan (101)
- Comprehensive Nutrient Management Plan (102)
- Conservation Plan (199)
- Conservation Plan Supporting Organic Transition (138)
- Drainage Water Management Design (164)
- Feed Management Design and Implementation Activity (158)
- Fish and Wildlife Habitat design and Implementation Activity (144)
- Forest Management Design and Implementation Activity (165)
- Forest Management Plan (106)
- Grazing Management Design and Implementation Activity (159)
- Irrigation Water Management Design (163)
- Nutrient Management Design and Implementation Activity (157)
- Pest Management Conservation System Design and Implementation Activity (161)
- Pollinator Habitat Design and Implementation Activity (148)
- Prescribed Burning Design and Implementation Activity (160)
- Site Assessment and Soil Testing for Contaminants Activity (207)
- Soil and Source Testing for Nutrient Management (217)
- Soil Health Management Design and Implementation Activity (162)
- Soil Health Management Plan (116)
- Soil Health Testing (216)
- Transition to Organic Design and Implementation Activity (140)

CAP Priority Resource Concerns/Resource Concern Categories

- Degraded Plant Condition
- Field Sediment, Nutrient, and Pathogen Loss
- Inefficient Energy Use
- Soil Quality Limitations
- Storage and Handling of Pollutants
- Terrestrial Habitat
