

## **PART 413 – PRESCRIBED BURNING**

### **SUBPART B – POLICY**

#### **IA413.11 Training**

C. Conservation Planners will complete the required 16 hours of awareness training to include practice Prescribed Burning (338) in conservation plans and/or contracts. In addition, each will also receive training in the:

- (1) Use of fire as a management tool to obtain desired objectives in program specific situations (WRP, WHIP, CRP, etc.)
- (2) Review of prescribed burn plans developed and submitted by others (DNR, FWS, CCB, TNC, etc.) to ensure objectives are met and practice Prescribed Burning (338) is met. This review and approval does not imply NRCS approval of the burn plan per se, just that it meets Prescribed Burning (338) and program objectives.

#### **IA413.14 Technical Planning and Application Assistance**

A. Iowa NRCS employees will not develop prescribed burning plans.
