

ACEP-WRE APPLICATION PROCESS

*At any time, an application may be determined **INELIGIBLE** or screen too low and may be reconsidered once application is updated accordingly.

This flow chart represents a general process and is subject to modification based on individual circumstances of an application. The application process generally takes up to six months. The process may differ slightly for 30-Year Contracts; contact the NRCS State Office Easements Coordinator for more information.

+See closing process workflows for continuation.

ACEP-WRE CLOSING PROCESS*

*Prior to closing, NRCS may withdraw the land from enrollment at any time due to the lack of availability of funds, inability of landowner to provide clear title or sufficient legal access, sale of the land, or for other reasons.

This flow chart represents a general process and is subject to modification based on individual circumstances of a transaction. The closing process can generally take from 18 months up to three years. Waivers requested to any terms can add up to 90 days to the process. The process may differ slightly for 30-Year Contracts; contact the NRCS State Office Easements Coordinator for more information.
