

Rocky Fork RCPP

Geography: Rocky Fork Watershed, Highland County

Resource Concerns:

Field sediment nutrient and pathogen loss
Concentrated erosion
Degraded plant condition
Soil quality limitation
Terrestrial habitat
Weather resilience
Wind and water erosion

Practice list:

Cover crops 340
Nutrient Mgmt. 590
Grassed waterways 412
Field borders 386
Filter strips 393
Structure for wildlife 649
Brush mgmt. 314
Early successional habitat 647
Mulching 484
Subsurface drain 606
Underground Outlet 620
Critical area planting 342
Grade Stabilization Structure 410
Line waterway 468
